

VACANCY

We are looking for a
Millwright

Position Summary

Reporting to the Maintenance Manager, the Millwright (industrial Mechanic) is responsible for installing, maintaining, troubleshooting and repairing stationary industrial machinery and mechanical equipment.

Key Responsibilities

Read blueprints, diagrams and schematic drawings to determine work procedures

Install, align, take apart and move stationary industrial machinery and mechanical equipment, such as pumps, fans, tanks, conveyors, furnaces and generators according to layout plans using hand and power tools

Operate hoisting and lifting devices, such as cranes, jacks and tractors, to position machinery and parts during the installation, set-up and repair of machinery

Inspect and examine machinery and equipment to detect and find irregularities and malfunctions

Install, troubleshoot and maintain power transmission, vacuum, hydraulic and pneumatic systems, and programmable logic controls

Adjust machinery and repair or replace defective parts

Operate machine tools, such as lathes and grinders, to fabricate parts required during overhaul, maintenance or set-up of machinery

Clean, lubricate and perform other routine maintenance work on machinery

Construct foundations for machinery or direct other workers to construct foundations

Assemble machinery and equipment prior to installation by using hand and power tools and welding equipment
